PROFESSIONAL PROFILE

I am a professional in Modern Languages with a focus on Digital Communication, passionate about language teaching, programming, and audiovisual production. I have strong knowledge in web development, specializing in creating websites using HTML, CSS and Git. Additionally, thanks to my focus on digital communication, I have developed skills in graphic design using tools such as Illustrator, Photoshop, Adobe XD and Figma. I have carried out practical projects where I have successfully applied my acquired knowledge. I am motivated by the challenge of merging my passion for languages with my experience in technology and design to create innovative and effective solutions in the digital world. Attached is my portfolio so you can learn more about me: Portfolio Link.
